

NEW

SWIFT M2000DF Series

Intermediate Compound Microscopes

Swift has been developing quality microscopes for close to 50 years. The M2000DF promises to be an outstanding addition to the Swift line for the new Millennium.

1 Versatility

- ◆ Interchangeable monocular and 45° angled, dual-view heads offer multiple viewing options
- ◆ Dual-view head can be used as a video tube, teaching body (teacher/student) or for 2 students simultaneously
- ◆ Optional 10-20X Zoom eyepiece provides a range of magnification normally found only on stereo microscopes

2 Ease of Use

- ◆ Extra-wide eye relief gives eyeglass wearers a full field of view
- ◆ Color-coded, fine focus knob simplifies focusing instruction
- ◆ Lighted on/off main switch indicates power status at a quick glance
- ◆ Reverse nosepiece removes objectives from slide change path
- ◆ Cord hangers afford neat and convenient cord storage
- ◆ Easy-to-see annulus numbers aid in disc diaphragm aperture adjustments
- ◆ Hinged bottom plate provides easy access to bulb for replacement
- ◆ Color-coded objectives provide instant magnification identification
- ◆ "Quick-Focus" system is easier to repair than regular coaxial systems

3 Swift Unique Features

- ◆ New patented "Gearguard," system prevents gear damage from over-focusing
- ◆ "Quick-focus" allows for smooth and speedy focus movement
- ◆ Ultra Lite® fluorescent illumination system provides 3x more light than competitive models because patented 45° angle of bulb requires no diffusing filter in field condenser
- ◆ New patented contemporary design ushers in a new look for microscopes
- ◆ Square cord hanger design adds new dimension to a functional apparatus
- ◆ One-piece stage plate/stage holder contributes to overall streamlined look

4 Safety

- ◆ Electrical system is UL/CUL approved
- ◆ Retractable 10X and 40X objectives protect optics from damage
- ◆ Swift finish is reagent-resistant
- ◆ Cord hangers prevent damage caused to objectives when cord is wrapped around the middle of the microscope
- ◆ Stainless steel, spring-loaded stage clips are flexible and user-friendly

5 Swift Guaranteed Quality

- ◆ Limited Lifetime Warranty offers the user peace of mind for the life of the microscope
- ◆ Swift assures that parts will be available for your microscope for many years to come
- ◆ Steel shaft guarantees durability of internal parts and unparalleled smooth focusing
- ◆ 5W-fluorescent bulb lasts 100x longer than incandescent bulbs.

5 Good Reasons to buy the Swift M2000DF

M2000DFDV
(Dual-View Model)

"Quality Microscopes For A Lifetime."

Swift M2000DF Series

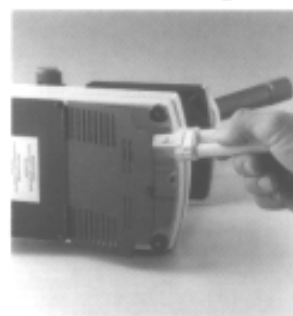

MODEL	SPECIFICATION
M2000DFMN	4X, 10X, 40X Objectives, W10X eyepiece, 360° rotatable monocular head, reverse nosepiece, one-piece stage/stage holder, 0.65 condenser, disc diaphragm with 5 annuli, cord hangers, color-coded coaxial focusing knobs, lighted on/off power switch, *UltraLite*® illuminator, one-piece field condenser housing/base, UL/CUL design patent.
M2000DFDV	Same as M2000DFMN, except with 45° angled dual-view head (MA2012), with two W10X eyepieces in place of monocular head (MA2011).
M2000DFMN-15	Same as M2000DFMN, except with W15X eyepiece (MA311) in place of W10X eyepiece (MA2010).
M2000DFMN-Z	Same as M2000DFMN, except with 10X-20X Zoom eyepiece (MA210D) in place of W10X eyepiece (MA2010).
M2000DFMN - MA889A	Same as M2000DFMN, except with MA889A Mechanical Stage installed in place of stage clips (MA2020).
M2000DFDV - MA889A	Same as M2000DFDV, except with MA889A Mechanical Stage installed in place of stage clips (MA2020).

M2000DFMN (Monocular Body)

New Cord Hangers

Easy Bulb Replacement

**MA210D
Zoom Eyepiece**

**MA889A
Mechanical Stage**

ACCESSORIES/PARTS FOR M2000DF

ITEM	DESCRIPTION
MA2010	W10X DIN Eyepiece, FN: 18mm (includes pointer)
*MA311	W15X DIN Eyepiece, FN: 10mm
MA210D	10X-20X DIN Zoom Eyepiece
MA2011	Monocular Head only w/o eyepiece
MA2012	Dual View Head with one (1) MA2010 W10X DIN eyepiece
MA350	4X DIN Objective (replacement only)
MA351	10X DIN Objective (replacement only)
MA353	40X DIN Objective (replacement only)
MA200	0.65 Condenser
MA889A	Attachable Mechanical Stage
MA2020	Stage Clips (pair)
MACORDH	Cord Hangers (pair)
MA2202F	5 Watt, 4100° K Fluorescent Lamp
MA336	Dust Cover

*Does not come standard with pointer, but one can be installed, upon request.
